

department of licensure approval
262020 liberty lane
washington, il 61571

to whom it may concern:

the approval of a camp license is dependent on county code and state code in the building process! here's a **hint** for you; apply for the correct permits **on** time and ONLY the correct permits. THE state inspector will be the one to FIRST look at the property and approve it. be sure to not lock any building as he needs to inspect it. the inspector is the final WORD OF approval. look **back** at building code 0 -4286 for any questions. EACH question needs submitted by 8 am on the day **of** final walk-through. we also require you to mark any electrical LINES on a **map** or blueprints. for any other questions, please call 309-444-3255. anthony goode will be your contact for this. his office is located on luck street in the downtown district.

sincerely,

carll kalish
director of licensure approval
